Power in Motion

True strength comes from momentum created when athletes, supporters, and community move forward together. At the Challenged Athletes Foundation (CAF), Power in Motion reflects what happens when sport ignites opportunity and community fuels progress.

Through mentorship, coaching, and shared experiences, athletes, supporters, and partners lift one another, build confidence, and expand what is possible. With access and support, athletes with physical disabilities break barriers and show the impact of movement rooted in unity.

San Francisco's Pier 27 provides the perfect setting for an evening of connection, celebration, and purpose. You will meet remarkable athletes, hear their stories, and experience the passion that drives them forward. You will see how CAF creates opportunity through programs and mentorship, funds the equipment that makes participation possible, and supports athletes at every stage of their journey.

Experience the power created when movement, community, and purpose come together and help set more lives in motion.

Our Mission

It is the mission of the Challenged Athletes Foundation to provide opportunities and support to people with physical disabilities so they can pursue active lifestyles through physical fitness and competitive athletics. We believe that involvement in sports at any level increases self-esteem, encourages independence and enhances quality of life.

Our Need

Despite positive and proven benefits of sport, barriers still exist for people with permanent physical disabilities, including the high cost of adaptive sports equipment, a sharp increase in participation costs, and limited access to local adaptive sports programming. Join CAF as we work to break these barriers, build momentum, and drive a movement that ensures every athlete has an equal chance to play and thrive.

Table Pricing and Sponsorship Opportunities

Reserve Tables, Tickets, or Sponsor the Event: www.challengedathletes.org/events/coh

\$50,000 /// Breaking Barriers Sponsor

IMPACT // You will break barriers by providing approximately five pieces of adaptive sports equipment to athletes and creating opportunities for an additional 25 athletes to participate in the sport they love.
